Executive Director
Canadian Psychiatric Association
Suite 204

Dear Mr Saunders;

As you know, environmental sensitivity is a serious problem. We are slowly coming to grips with it, partly because our health care system has been slow in recognizing it as a distinct health problem. I would like to know whether the Canadian Psychiatric Association agrees with the view advanced in the last paragraph of the enclosed excerpt from a report on chemical sensitivity to the New Jersey State Department of Health. CPA's views on the diagnosing and treatment of environmental sensitivity would be very helpful.

Please let me know. I thank you. With best wishes,

Sincerely,

enclosure
